## THE JUNCTION CITY.

Negotiations Looking to a Transfer of the Proposed Power Dam.

A Conclusion Reached as to the Temple Square Litigation-Governor West's Arrival.

OGDEN, May 3 .- For some time past negotistions have been pending between a party of Sali Lake capitalists and the Ogden power-dam people, for the trans-fer of all the power to be generated by the dam when completed, to Salt Lake city, by means of lines of wires to follow the base of the mountains. A HERALD rep-

by means of lines of wires to follow the base of the mountains. A Heranin representative was assured today that the scheme is rapidly taking form, and indications point to the successful issue of the novement. The gentleman who furnished the information stated that the Salt Lake people had offered to build the dam, put the wires in pluce, purchase the 720 awas of land which go with the dam, and pay a heavy bonus for the Ogden company's claim, provided that no power should ever be furnished to Ogden from the dam. When seen tonight regarding the matter, Mr. Mayne—as usual—smiled and that "was all he said."

After many years of litigation, the city authorities have about reached the concension that the rightful owners of the Tabernacie square is the Church of Jesus Christ of Latter-day Saints, by reason of appropriation at least, and the city will probably give a quit claim deed and have the case now pending in the courts withdrawn. The cause of this contemplated action is said to be the demand of the citizens of the north district clamoring for such improvements as sewers and sidewalks, and while the square is in context the improvements cannot be made. With the property in the hands of the church the city can compel the payment of assessments for the improvements.

New York Stock Market.

New York, May 3.—This was a day of great excitement and depression on the Stock exchange. Sales reached the large total of 506, 501 shares. Houdanions having been on a more extensive scale than for a long time. There was nothing in the way of news to affect priors adversely. Heavy selling is attributable almost emitrely to exhaustion of margina and the uncertainty created by rumors in circulation affecting credit of corporations and individuals. The only failure reported was A. H. Wheelex, and this was of little consequence, but the bears to taking advantage of demoralization started stories about the alleged embarassment of leading operators and backers, but much diliguatesarous after the close of the exchange failed to corroborate these stories of impending trouble. There is no doubt, however that many louns or industrials were called in and some firms were forced to sell. Railies in the market were frequent, but counted for little, each and every recovery starting a selling movement afresh.

The depression was most marked affor the delivery boar (2.15 p. m.) when there was an a semi-panic sy conduiton and the board room was preastically bediant let focus. National Cordings in prole 14%.
